

## Administrative Violations Record Layout

This record layout denotes data columns that may be extracted to an Excel spreadsheet or to a comma-delimited text file. For comma-delimited data, each field is enclosed with double quotes ("field") and separated by a comma (,).

Records are sorted by ascending CLP and descending Violation Date so that the latest violation for the CLP is listed first.

Comma Delimited example : > "MB123456","XYZ INN","ABC INC.,""1011","MAIN STREET","""", etc. ...

Field Number	Field Name	Description
1	CLP	1 or 2 character license class + 7 digit number
2	tradenname	Name of the establishment
3	owner	Name of owner of establishment or license
4	ll_streetaddressnbr	Street number of location address e.g. 1011
5	ll_addressline1	Location street address e.g. Main Street
6	ll_addressline2	Field to allow for longer location addresses
7	ll_addressline3	Field to allow for longer location addresses
8	ll_cityname	City name where establishment is located
9	ll_statecode	State abbreviation where establishment is located
10	ll_zip	Zip code of location (no hyphen)
11	ll_phoneNbr	Business phone number
12	ll_countyname	Texas county name associated with licensed location address
13	ll_countryname	Location country if located outside of U. S. A.
14	ma_streetaddressnbr	Street number of mail address if applicable
15	ma_addressline1	Mailing address
16	ma_addressline2	Field to allow for longer mailing addresses
17	ma_addressline3	Field to allow for longer mailing address
18	ma_cityname	City name for mailing address
19	ma_statecode	State abbreviation for mailing address
20	ma_zip	Zip code of mailing address (no hyphen)
21	ma_countryname	Foreign country of mailing addresses if outside the U. S. A.
22	licStatusDesc	Status of license - Current (active), expired, cancelled etc.
23	originalLicenseDate	Date license was originally issued
24	expiryDate	Date license will expire unless there is a renewal pending (next data column)
25	relCLP	Class and license number of a related license at same location
26	pendingRenewal	When value = 'Y', this indicates a renewal application has been received for this license.
27	pendingChgLL	When value = 'Y', this indicates that an application for change of location has been received.

Field Number	Field Name	Description
28	winepercent	Indicates either 14 or 17 for applicable license classes. Authorized retailers may sell beer, ale, malt liquor and wine containing no more than 14 percent or 17 percent alcohol (depending on type of local-option election).
29	allSubordinates	If this primary license holds 'subordinate' licenses then a list of all subordinate licenses held. Example - LB (late hours), CB (caterer's), etc.
30	complaintNbr	Number identifying the associated complaint
31	violationStatus	Status of the violation - Open, Closed
32	violationDate	Date violation occurred
33	violationCode	TABC numeric identifier for the violation
34	violationDesc	Description of the violation
35	docketNbr	Number assigned to the administrative case by TABC
36	disposition	Latest action taken by TABC
37	penaltyFine	Dollar amount of the fine (if any)
38	penaltyPaid	Dollar amount that was paid towards the fine (if any)
39	penaltyPaidDate	Date fine (if any) was paid
40	disciplineBeginDate	Date the suspension (if any) began. For other disciplinary actions, the date the disciplinary action took place, if available.
41	disciplineEndDate	Date the suspension (if any) ended. This will be blank for all other disciplinary actions.
