 Old Layout 6
 New v. Old Layout Mapping 8

New Layout

Field #	Field Name	Description
1	Master File ID	Reference number associated with all licenses held by a legal entity (owner). One unique Master File ID is associated with each unique owner entity.
2	License Type	Character reference to one of the 28 current TABC primary license types (classifications). Maximum of two (2) characters. E.g., MB, BG, BQ, etc. For more information visit the TABC License and Permit Types webpage.
3	License ID	Unique numerical reference to a TABC license. Maximum of nine (9) numerals. These are the new license numbers associated with the Alcohol Industry Management System (AIMS).
4	Primary Status	Primary status associated with a TABC license at any given point in time. Examples include Active, Expired, Expired-Original Required, Canceled, Deleted, Suspended, Temporarily Surrendered, and Surrendered.
5	Secondary Status	Secondary status associated with a TABC license at any given point in time. There is only one value, Renewal Pending. Note Renewal Pending can only be associated with TABC license primary status values of Active, Suspended or Temporarily Surrendered.

Field #	Field Name	Description
6	License Status	Combined Primary Status and Secondary Status into a single field.
7	Current Issued Date	Most recent date the license was issued by TABC to the license holder (owner).
8	Status Change Date	The date of the last Primary Status change for a license or permit.
9	Expiration Date	Date license will expire unless there is a renewal pending (see secondary status).
10	Expiration Year	Year component of the Expiration Date.
11	Expiration Month	Month component of the Expiration Date.
12	Expiration Day	Day component of the Expiration Date.
13	Trade Name	Name of the establishment (often a DBA).
14	Owner	Name of the owner of license issued by TABC.
15	TBD 01	Field provided for future growth and development.
16	TBD 02	Field provided for future growth and development.
17	Wine Percent	Indicates either 14 or 17 percent volume for applicable TABC license classes. Authorized retailers may sell malt beverages and wine not more than 14 percent or 17 percent (depending on type of local-option election).
18	Gun Sign	Displays either Blue or Red. If Red, this indicates that a business is required to post a red handgun warning sign. View TABC's Sign Requirements webpage for more information. No action is required for the Blue designation as the blue signs are no longer required under state law.
19	Original Issue Date	Date the TABC license was originally issued to the owner.

Field #	Field Name	Description
20	Tier	Indicates the "Industry Tier" associated with the TABC issued license(s). It must be one of four values: Upper Tier: Manufacturing (or Manufacture) Middle Tier: Distribution Lower Tier: Retail Other Tier: Other
21	Subordinates (list)	List of TABC subordinate license types (separated by commas) associated with the TABC Primary License.
22	BP	Indicates subordinate license type BP (Brew Pub).
23	SD	Indicates subordinate license type SD (Brewer's Self-Distribution License).
24	E	Indicates subordinate license type E (Local Cartage Permit).
25	FB	Indicates subordinate license type FB (Food and Beverage Certificate).
26	LH	Indicates subordinate license type LH (Late Hours Certificate).
27	LP	Indicates subordinate license type LP (Local Distributor's Permit).
28	WP	Indicates subordinate license type WP (Water Park).
29	FC	Indicates subordinate license type FC (Forwarding Center Authority).
30	Address	Physical location address (street number and street name) associated with the TABC issued license.
31	Address 2	Suite number or other detail further identifying the physical location address associated with the TABC issued license.
32	City	City associated with the physical location address.
33	State	State (abbreviation) associated with the physical location address.
34	ZIP	ZIP code associated with the physical location address (no hyphen).
35	Phone	Business phone number.
36	County	Texas county associated with physical licensed location address.
37	Country	Country associated with physical licensed location address.

Field #	Field Name	Description
38	TBD 03	Field provided for future growth and development.
39	TBD 04	Field provided for future growth and development.
40	TBD 05	Field provided for future growth and development.
41	Mail Address	Mailing address (street number and street name) of the TABC issued license owner.
42	Mail Address 2	Suite number or other detail further identifying the mailing address of the TABC issued license owner.
43	Mail City	City associated with the mailing address.
44	Mail State	State (abbreviation) associated with the mailing address.
45	Mail ZIP	ZIP code associated with the mailing address (no hyphen).
46	Mail Country	Country associated with the mailing address.
47	Legacy CLP	The Legacy Class-License-Permit (CLP), a unique identifier for a TABC issued license or permit (one or two character license class + up to a 7 digit legacy (old) license number).

How to search by Master File ID

The New Layout option also allows users to search by Master File ID using the **Verify the status and other information on License(s)/License Information** functions.

License Information

License Number Master File ID

Please refrain from clicking the back button on your browser as it may produce unexpected results. If you wish to inquire on a limited number of license permits, please enter a license number (e.g. "MB123456") or AIMS License ID (e.g. "100123456") and click "Add". Note: similarly, to the license instruction above, in order to search by Master File ID, first select the Master File ID radio button and then enter a valid Master File ID value in the box labeled Master File ID. You are allowed up to 100 records. When finished, click "Submit" below.

License Number	
<input type="text"/>	Add

Old Layout

Field #	Field Name	Description
1	CLP	The legacy old character reference to one of the TABC license types (classifications) (Maximum of two (2) characters. E.g., MB, BG, BQ, etc.) + up to a 7digit legacy (old) license number. For more information visit the TABC License and Permit Types webpage.
2	AIMS_LicenseType	Character reference to one of the TABC license types (classifications). Maximum of two (2) characters. E.g., MB, BG, BQ, etc. For more information visit the TABC License and Permit Types webpage.
3	AIMS_LicenseID	Unique numerical reference to TABC license. Maximum of nine (9) numbers. These are the new license numbers associated with the Alcohol Industry Management System (AIMS).
4	tradenname	Name of the establishment (often a DBA).
5	owner	Name of the owner of license issued by TABC.
6	ll_streetaddressnbr	Street number of location address e.g. 1011
7	ll_addressline1	Location street address (e.g. Main Street)
8	ll_addressline2	Field to allow for longer location addresses
9	ll_addressline3	Field to allow for longer location addresses
10	ll_cityname	City associated with the physical location address.
11	ll_statecode	State (abbreviation) associated with the physical location address.
12	ll_zip	ZIP code associated with the physical location address (no hyphen).
13	ll_phoneNbr	Business phone number
14	ll_countyname	Texas county associated with physical licensed location address.
15	ll_countryname	Country associated with physical licensed location address.
16	ma_streetaddressnbr	Mailing address street number
17	ma_addressline1	Mailing address street name
18	ma_addressline2	Field to allow for longer mailing addresses
19	ma_addressline3	Field to allow for longer mailing addresses
20	ma_cityname	City name for mailing address
21	ma_statecode	State abbreviation for mailing address
22	ma_zip	ZIP code of mailing address (no hyphen)
23	ma_countryname	Country associated with the mailing address.

Field #	Field Name	Description
24	licStatusDesc	Combined Primary Status and Secondary Status into a single field. E.g., Active – Renewal Pending
25	originalLicenseDate	Date the TABC license was originally issued to the owner.
26	expiryDate	Date license will expire unless there is a renewal pending.
27	relCLP	Class and license number of a related license at same location
28	pendingRenewal	When value = 'Y' this indicates a renewal application has been received for this license
29	pendingChgLL	When value = 'Y' indicates that an application for change of location has been received
30	pendingChgTN	When value = 'Y' indicates that an application for change of trade name has been received
31	winepercent	Indicates either 14 or 17 percent volume for applicable TABC license classes. Authorized retailers may sell malt beverages and wine not more than 14 percent or 17 percent (depending on type of local-option election).
32	allSub	List of TABC subordinate license types (separated by commas) associated with the TABC Primary License.
33-49	Next 17 columns	Each column represents a subordinate class of license or permit. If primary license has related subordinate licenses then there will be a value of 1 in the appropriate column
50	Gun Sign	Displays either Blue or Red. If Red, this indicates that a business is required to post a red handgun warning sign. View TABC's Sign Requirements webpage for more information. No action is required for the Blue designation as the blue signs are no longer required under state law.
